

To us, the most important component of the Education System is the people within it. Our corporate vision is a personal one – the chief beneficiaries of which are Educators and Learners, people whom we aim to make a difference in their lives. At PAI, it is our mission to become the leading provider of educational resources, complementing our schools, institutions and education environment with quality services and programmes.

Our Vision:

To become Asia's premier education resource, empowering educators and learners with the necessary skills and opportunities to enhance their educational & professional development.

Our Mission:

To be the leading provider of education resources, offering Professional Development, Accreditation, Consultancy and Enrichment through strategic collaboration and partnerships that will enrich the education environment in the region.
