At PAI, we committed to improving the quality of life in the society that we operate in. We wish to share the Organization's success with the broader community, with an emphasis on investment in people - particularly children and youths with perceived social and behavioral challenges - to develop confidence, imbibe values and build capabilities in our targeted groups.

Principals Academy Inc is proud to have played a key role in supporting "Stories Teachers Tell 2011", Organized by Academy of Principals (Singapore) in collaboration with the Curriculum Planning & Development Division and National Education Branch, Ministry of Education, Singapore. The writing contest saw over 200 Singaporean teachers sending in their stories. 12 selected entries will be published as a series of books to be included into the current school curriculum, and the authors of the respective entries will be sponsored on a one-week study trip to New Zealand.

We are keen to work with partners from schools, community or industry to explore joint funding or research on projects and initiatives that will benefit society and our next generation. If you are keen to explore this further, please send your proposal and any accompanying material to info@pai.sg
