

Bringing the World to Singapore

Catering to both large education-related organizations & departments to smaller groups of individuals, PAI Study Tours emphasize experiential learning and offer both group and self-directed activities that enable learners to discover new territories, people, and ways of life.

We offer the flexibility to customize a programme according to your interests and requirements:

- Our Study Tours combine educational programmes with activities for our participants to experience a wide range of exciting learning experiences and enjoy cultural and social interactions;
 - Tour itinerary could include English lessons; youth enterprise and leadership training; visits to local schools; city and island tours; or short-term tour to neighboring resorts.
 - Specialized study tours for adults, educators and professional groups can be arranged to help participants gain insights into Singapore's education environment and its culture.
 - Forum exchanges that facilitate the interaction of teachers from different countries.
- Through this sharing educators can learn different methods and techniques, and relate these back to their teaching environment, enhancing their teaching skills.
