School Placement Exercise for Returning Singaporeans (SPERS JC/MI)

The School Placement Exercise for Returning Singaporeans - Junior Colleges and Millennia Institute (SPERS-JC/MI) is a centralised placement exercise conducted at the end of the year for Returning Singaporeans who wish to join the Pre-University 1 level at the beginning of the next academic year.

Similar to the overall function and purpose of PACT, SPERS-JC/MI helps student applicants save time by removing the need for them to take entrance exams administered at the individual institutions. SPERS-JC/MI also assists our local schools by providing a standardized platform for Returning Singaporeans seeking a place in a Junior College / Millennia Institute.

Assisting the Ministry of Education in the administering of the SPERS-JC/MI, PAI provides the planning, logistical and administrative support required to conduct the placement exercise on a yearly basis.

For more information about SPERS-JC/MI or registration procedures, please visit MOE website .
